

Vehicular Datatraffic

Mez

Series.1

Real.] [s] [igning of a Poste-N.Tity Condenstruction_

1. Diaggressive Readettachment

A fusive proligrating of the substringular damps all flushing actions. The bath is drenched with P][e][lastmica(tm*).
SeveReal of the Headronic pulse.][.ing][within x.pansitive verbogens. A lone fusalarge floats in2 full-blown Circuitdian
][a][Motion.

2. Flue.I.D Syrephoneic Igknition

CeRAMica actualidation abasiacs the tripwired. Duel Acton Rogue][-V][rs melt severbal to the newly-pored
E-verbogens. A shiv][a][erb blows down the Crystaligns(tm*). Client][sui][cide Trembling begins during the Syphonic
buzzular.

3. Revamplified Codemagoguing

Core.pus.culation brings fresh metronulation. The w.arnicas bleat in undulatory arhythematics.
Hydra.Onmnonics ooze a
taxenophobic substance known as Geneticosa(tm*). Disenflagulation becomes imp.ossicle.

*[Tyrellic Modemathics]

Realigning of a Post-O.s][cientific][teal Entity [Condensation (GOTO:+) N.struction]

1. Di][ag][gressive Rea][der][ttachment (GOTO:++)

A Fusible Fiction Ligature can be used in order to substantiate the dampening of all Flushing Actions. The
ba][r][th][e][s
are drenched with P][e][lastmica(TM*). Seve.r][e][al of the Header Tronics(TM*) pulse within the
X.pansivity
Verbotens(TM*). A lone Prose F][racted][uselage floats into full-blown Circuit][e][Motion.

2. Fluid Sy.phon][etic][Ig][k][nit.ion (GOTO:+++)

CeRAMica(TM*) activates the Authorial Abasia Tripwire. Duel Acton Roguers(TM*) melt Subverbals to
the newly-pored
E-Verbotens. A Shiverb(TM*) cooling system blows down the Crystaligns(TM*). Client-S][uic][ide
Trembling begins
during the Syphon Buzz.

3. Re][v][amplified Co-de.magoguery (GOTO:++++)

Corpus Circulation brings fresh metronymics. The W.arnicas (TM*) bleat in Undone Undulatory Theory
rhythmicity.
Hydrokinetically driven holdpoints ooze a foregroundophobic substance known as][jean][
Genet.icoso(TM*).
Disengagement becomes impossible.

+ Condensation Instruction is the process where dream images/ideas cojoin in a single symbolic nodepoint & r subsequently extractable from a text//may also indicate a change in a manifest reader/state functioning//

++ Digressive Reader Attachment may indicate narrative/collusive mass hysterical meaning adherence.

* Tyrellic Models [mathematically oriented] r subsets of an emergent strand of artificially induced entities designed to initially mimic the standard replication & procedural nature of regular scientific/textual statements. these entities r then coded with X types of Antithetical Statements, which r subsequently reverse geared in order to evolve past established realities.

+++ Fluid Syphonetic Ignition illustrates a method of interactive connotation loading/2 ignite or knit via a liquid learning curve.

++++ Revamped & Amplified Code Demagoguery is employed to dissolve any strict reader adherence to previously held linearities or discourse dependencies.
